MEDIA RELEASE:

WINNIPEG January 5, 2007 - Please be advised that the Kenaston Snow Disposal Site located at the west side of Kenaston Boulevard between McGillivray Boulevard and Wilkes Avenue will be closed effective 3:00 p.m. today until further notice. Accordingly, the entrance of the site will be barricaded and a closure sign will be put up.

The closure of the site is required to allow dozers to work for the next few days to make the site more accessible and safe for the public. Despite using two dozers around the clock, the site is overwhelmed with continuous snow dumping activities since the significant snow event last weekend.

The capacity and the accessibility will be re-assessed early next week to determine if the site can be re-opened to the public.

The closure will not affect the four other public snow disposal sites which are currently open. They are:

- **North**
McPhillips Site: South of Perimeter Highway on McPhillips Avenue
- **East (2 sites)**
Ravelston Site: Ravelston Avenue and west of Plessis Road
South End Pollution Control Centre Site: South of Perimeter Highway, east of St. Mary's Road
- **South**
Charleswood Lagoon: South side of Wilkes Avenue, adjacent to the Charleswood Lagoon
